

COMUNICACION 4

Yesterday was Break Day!

A wonderful excursion to the marvelous city of Toledo was planned! The Spanish Province pulled out all the stops to treat us! We were provided with maps, bottled water, a cap (baseball), snacks, guides and a formal lunch at the Officers' Club of the Military Base!

Around 9:30 a.m. we boarded a pullman and headed for Toledo, THE city of El Greco! His art is everywhere because he lived and worked and received commissions there!!! We visited two major museums featuring the art of El Greco.

Another exquisite site was the Cathedral that is massive and has a monumental, awesome ostensorium that is used for the Corpus Christi procession annually. The side sacristies are filled with El Greco's masterpieces as well as those of other outstanding artists. There was so much to see in Toledo and we were

deeply grateful to the Province of Spain for this most enjoyable day.

Today, we returned to the meeting room to focus on the subject of leadership facilitated by Sister Oliva Vico, O.P., who is a psychologist specializing in Biblical spirituality. Sister Oliva opened the morning session with the Flash Mob presentation in the Antwerp train station (Belgium) of 'Do Re Mi' from 'The Sound of Music'.

Sister asked if there was any relationship of the Flash Mob to leadership? Many offered their insights on the role of leadership to achieve this delightful production. During the course of the day, two themes were expanded upon: leadership as a call from God based on Jeremiah 1: 4-10 and the emotional intelligence involved in this call from God.

These presentations by Sister Oliva along with our group work were enriching and affirming.
